

Remarks

In the Notice of Allowability dated December 1, 2009, the Examiner requires corrected drawings to label Figure 1 and "Prior Art." The Applicants respectfully note that Figure 1 is not showing prior art, but instead is depicting a system including a high temperature loop 2 and a low temperature loop 4, as described in paragraph [0032]. Figures 2-6 depict the low temperature loop 4 in greater detail, as described in paragraphs [0033]-[0051]. As such, the Applicants respectfully note that Figure 1 is not showing prior art and, accordingly, Figure 1 is not labeled as "Prior Art."

Respectfully submitted,

HOWARD & HOWARD ATTORNEYS PLLC
